

Technical Data Sheet & Spec Summary

Compiled By: Apexon Technical Engineering Team

Date Compiled: May 23, 2024

Product Identification

Manufacturer / Brand: EPCOS (TDK)

Model / MPN: B43457-S5338-M9

Description: High-voltage, high-capacitance aluminum electrolytic capacitor with screw terminals designed for heavy-duty industrial power applications, DC-link circuits, inverters, and UPS systems.

Technical Specifications

Model / MPN: B43457-S5338-M9

Manufacturer / Brand: EPCOS

Series: B43457

Capacitance: 3300 μ F

Rated Voltage: 450 VDC

Terminal Type: Screw Terminal

Case Dimensions (d x l): 64 x 151 mm

Construction: Robust aluminum case

Application Suitability: Power supplies, motor drives, frequency converters

Key Features: High ripple current handling, long operational life, low-resistance connections

Standard Compliance: Industrial grade energy storage and filtering
