

**Product Identification:**

Manufacturer: Electronicon

Part Number: E62.Q10-104L10/J

Product Type: MKP-1 DC Filter Capacitor

Description:

Description: Metallized polypropylene DC filter capacitor for power electronics, DC link, and RFQ replacement sourcing applications.

Key Specifications:

Capacitance: 100 μ F

DC Voltage Rating: 1120 VDC

AC Voltage Rating: 680 VAC

Dielectric: Metallized Polypropylene

Capacitor Type: MKP-1

Application:

Application: Suitable for B2B procurement, RFQ support, DC filter capacitor replacement, and industrial power electronics sourcing.
