

Product Identification:

Manufacturer: Sinofuse

Part Number: EV315-M4Q100A

Product Type: High-voltage DC fuse

Series: EV315-M

Description:

Description: High-voltage DC cylindrical cartridge fuse for protected DC power circuits in electric vehicle, battery, and industrial energy applications.

Key Specifications:

Rated Current: 100 A

Rated Voltage: DC 500 V

Type Code: 4Q

Body Format: Cylindrical cartridge fuse body

Terminal Style: Bolted blade terminals with mounting holes

Manufacturer Marking: Shaanxi Zhongrong Electric Co., Ltd. / Sinofuse marking visible on label

Application:

Application: Exact-match procurement and replacement sourcing for protected high-voltage DC power circuits.
