

Manufacturer: TOGAMI Electric
Part Number: PAK-20J31-P3745
Secondary ID: MS31CN240
Product Type: Electromechanical Contactor

Description:

Description: TOGAMI Electric PAK-20J31-P3745 is an electromechanical contactor for industrial control and switching applications.

Key Specifications:

Coil Voltage: AC 24 V
Main Terminal Markings: R/1/L1, S/3/L2, T/5/L3, U/2/T1, V/4/T2, W/6/T3
Auxiliary Contact Marking: 31-32 NC
Auxiliary Contact Type: Normally Closed
Pole Configuration: 3-pole main power terminals
Switching Function: Industrial control and load switching

Application:

Application: Used in control panels, machinery circuits, motor control assemblies, and electrical switching systems requiring matching coil voltage and terminal configuration.
